Editing MARC in Evergreen Staff Client

- To get to the MARC Edit interface, please see [Editing MARC Records](#) in Sitka's Evergreen Documentation.
- For a primer on the fixed field and editing it please see the next section, [MARC Record Leader and MARC fixed field 008](#).

Fixed Field Example

[The Giver quartet by Lois Lowry](#) - barcode 35246000832277 at Fort Nelson.

- Will be retrieved by the Teen Fiction criteria because it has values for Type: a, Form: r, Audn: d and LitF 1.
- This record's Date Active timestamp falls on 2014-09-11 12:10 PM which will place it in October's Teen Fiction list (see below).

Booklist Builder Criteria

- LibPress booklists rely on two groups of metadata to be populated: fixed field values in the 008 that feed into Evergreen's search filters as well as the date a bib record became active (changed status to Available) in a particular catalogue.
- Often times one or more fixed field values will be incorrect or not filed (namely Audn) and will return no recent records, leading to empty lists.

Currently a bug is preventing space values for Form from being indexed in EG, these should be catalogued with r (print production) to ensure they are added to lists properly

Fixed Field (008) Values

Book List	Item Type (Type)	Audience (Audn)	Item Form (Form)	Literary Form (LitF)
Adult Fiction	a, t	e, g	r, space or no code*	1, f, j

book

- Date Active must occur within the last month to be included in the current month's lists.
- For example, items with a Date Active timestamp that falls in August will appear in the New Items list for September.
- Date Active is set when the Status of a record changes to Available for the first time.
