# Introduction to Networking for Public Libraries

## Report prepared by Strobe Consulting on behalf of the BC Libraries Cooperative, originally published November 2020

In an effort to assist libraries with technology purchasing decisions related to networking, the Co-op's Connectivity Consultant has put together this guide to Network Technology Planning. We are hosting it on a wiki in the hope and expectation that it can be updated as technologies changes.

1. [Introduction](#)
2. [The Shift to Remotely Managed Services](#)
3. [Choosing an Internet Service Provider in BC](#)
4. [Connectivity Infrastructure Overview](#)
  1. [Choosing Customer Premises Network Solutions](#)
    1. [Firewalls](#)
    2. [Routers](#)
    3. [Switches](#)
    4. [WIFI](#)
    5. [Cabling](#)
    6. [Power Management](#)
    7. [Network Software Solutions](#)
    8. [Routing Functions](#)
    9. [Security Applications](#)
    10. [Network Management](#)
  2. [Appendix 1 - Internet Standards](#)
  3. [Appendix 2 - Vendor Links](#)
  4. [Appendix 3 - Other Resources on Technology Use in Libraries](#)
