Edit Track Name in Set Play Order 1

Edit Track Name in Set Play Order

You can edit the track name on this page in the text box labelled `Title` directly below the Rank dropdown menu.

It is recommended to use Track Discovery to rename tracks, but if you need to edit a single track during a final review of your work, you can use this function.

You can turn off the automated capitalization when editing a track title on this page. Near the top of the page, below the text box for `Title` and above the save button, you will find the phrase: `automatically correct capitalization and spacing` followed by a checkbox. To turn off the automatic capitalization simply unselect this checkbox.

Here is a quick video tutorial: https://somup.com/c3VtbYZAyM
