Cover 1

Cover

[French: *Couverture*]

We keep the cover image at the beginning of the book.

Before you write your Alt-text you need to do the following:

- Make sure the image is set to inline with text:
 - right click the image
 - Select **Wrap Text > In Line with Text**
- Resize the image to the page as necessary. See [How to Resize Images in Word](#) for how to do this.

[Here is a demo to show you how to set up the Cover page.](#)

Software can only detect and properly read the Alt-text associated with an image when it is placed **In Line with Text**.

For instructions on how to write Alt-text go to [Covers](#) in the Image section.

Most books still have a title page that goes after the Cover. See [Title Page](#) for how to format this section.

If you find a cover image in a book section, simply remove the cover and replace with the title. Please see [Also by the Author](#) for more information.

If you have any questions, please post them in the [Production Q&A](#)
