Textboxes & Sidebars

Text boxes, sidebars, and asides are all what are considered `secondary content`.

All `secondary content` should be moved to an appropriate place within the main narrative flow (i.e. at the end of a section.)

The appropriate heading level is to be applied to the heading of the secondary content. For more information, please see the Headings Section.

You will need to add the term `Aside:` to all secondary content headings. This will indicate to the reader they are reading secondary content.

If the secondary content does not have a heading insert the heading `Aside` with the appropriate heading level
